

The Town, the City and the Countryside

Hello and welcome back, in this lesson we will be exploring the town, city and the countryside. What they are, what you can find in each place and where they are.

What is a town?

The word what is used to find out something. Therefore 'what' is only used when referring to specific information.

A town is a built-up area with a name, defined boundaries, and local government. A town is larger than a village and generally smaller than a city.

Where can you find towns?

The word where is used to find out a place.

Therefore 'where' is only used when referring to a place or location.

Towns can be found all over the world.

As towns are relatively small there are a lot more towns than cities.
